Scoring Instructions for the Depression Questionnaire
Quick Inventory of Depressive Symptomatology (QIDS-SR16)

The QIDS-SR16 can be useful in identifying depressive symptom severity and changes in these symptoms over time.¹

To score the QIDS-SR16²:
1. Enter the highest score on any 1 of the 4 sleep items (items 1 to 4).
   Enter the highest score on any 1 of the 4 weight items (items 6 to 9).
   Enter the highest score on either of the 2 psychomotor items (15 and 16).
2. There will be one score for each of the 9 DSM-IV Major Depressive Disorder symptom domains.
3. Add the scores of the 9 items (sleep, weight, psychomotor changes, depressed mood, decreased interest, fatigue, guilt, concentration, and suicidal ideation) to obtain the total score.

Total scores range from 0-27

Higher scores are associated with increased severity in depressive symptoms*:

<table>
<thead>
<tr>
<th>Normal/No Depression</th>
<th>0-5</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mild Depression</td>
<td>6-10</td>
</tr>
<tr>
<td>Moderate Depression</td>
<td>11-15</td>
</tr>
<tr>
<td>Severe Depression</td>
<td>16-20</td>
</tr>
<tr>
<td>Very Severe Depression</td>
<td>21-27</td>
</tr>
</tbody>
</table>

*These are general guidelines based on the University of Pittsburgh Epidemiology Data Center. IDS-QIDS, 2011. Clinical judgment should always be used to make a diagnosis of major depression and to make decisions regarding the need for and type of treatment interventions.

Quick Inventory of Depressive Symptomatology
(16-item) (Self-Report) (QIDS-SR16)

Check the 1 response to each item that best describes you for the past 7 days.

1. Falling Asleep:
   - 0 I never take longer than 30 minutes to fall asleep.
   - 1 I take at least 30 minutes to fall asleep, less than half the time.
   - 2 I take at least 30 minutes to fall asleep, more than half the time.
   - 3 I take more than 60 minutes to fall asleep, more than half the time.

2. Sleep During the Night:
   - 0 I do not wake up at night.
   - 1 I have a restless, light sleep with a few brief awakenings each night.
   - 2 I wake up at least once a night, but I go back to sleep easily.
   - 3 I awaken more than once a night and stay awake for 20 minutes or more, more than half the time.

3. Waking Up Too Early:
   - 0 Most of the time, I awaken no more than 30 minutes before I need to get up.
   - 1 More than half the time, I awaken more than 30 minutes before I need to get up.
   - 2 I almost always awaken at least 1 hour or so before I need to, but I go back to sleep eventually.
   - 3 I awaken at least 1 hour before I need to, and can’t go back to sleep.

4. Sleeping Too Much:
   - 0 I sleep no longer than 7-8 hours/night, without napping during the day.
   - 1 I sleep no longer than 10 hours in a 24-hour period including naps.
   - 2 I sleep no longer than 12 hours in a 24-hour period including naps.
   - 3 I sleep longer than 12 hours in a 24-hour period including naps.

5. Feeling Sad:
   - 0 I do not feel sad.
   - 1 I feel sad less than half the time.
   - 2 I feel sad more than half the time.
   - 3 I feel sad nearly all of the time.

6. Decreased Appetite:
   - 0 There is no change in my usual appetite.
   - 1 I eat somewhat less often or lesser amounts of food than usual.
   - 2 I eat much less than usual and only with personal effort.
   - 3 I rarely eat within a 24-hour period, and only with extreme personal effort or when others persuade me to eat.

7. Increased Appetite:
   - 0 There is no change in my usual appetite.
   - 1 I feel a need to eat more frequently than usual.
   - 2 I regularly eat more often and/or greater amounts of food than usual.
   - 3 I feel driven to overeat both at mealtime and between meals.

8. Decreased Weight (Within the Last 2 Weeks):
   - 0 I have not had a change in my weight.
   - 1 I feel as if I’ve had a slight weight loss.
   - 2 I have lost 2 pounds or more.
   - 3 I have lost 5 pounds or more.

9. Increased Weight (Within the Last 2 Weeks):
   - 0 I have not had a change in my weight.
   - 1 I feel as if I’ve had a slight weight gain.
   - 2 I have gained 2 pounds or more.
   - 3 I have gained 5 pounds or more.
10. Concentration/Decision Making:
- □ 0  There is no change in my usual capacity to concentrate or make decisions.
- □ 1  I occasionally feel indecisive or find that my attention wanders.
- □ 2  Most of the time, I struggle to focus my attention or to make decisions.
- □ 3  I cannot concentrate well enough to read or cannot make even minor decisions.

11. View of Myself:
- □ 0  I see myself as equally worthwhile and deserving as other people.
- □ 1  I am more self-blaming than usual.
- □ 2  I largely believe that I cause problems for others.
- □ 3  I think almost constantly about major and minor defects in myself.

12. Thoughts of Death or Suicide:
- □ 0  I do not think of suicide or death.
- □ 1  I feel that life is empty or wonder if it’s worth living.
- □ 2  I think of suicide or death several times a week for several minutes.
- □ 3  I think of suicide or death several times a day in some detail, or I have made specific plans for suicide or have actually tried to take my life.

13. General Interest:
- □ 0  There is no change from usual in how interested I am in other people or activities.
- □ 1  I notice that I am less interested in people or activities.
- □ 2  I find I have interest in only one or two of my formerly pursued activities.
- □ 3  I have virtually no interest in formerly pursued activities.

14. Energy Level:
- □ 0  There is no change in my usual level of energy.
- □ 1  I get tired more easily than usual.
- □ 2  I have to make a big effort to start or finish my usual daily activities (for example, shopping, homework, cooking, or going to work).
- □ 3  I really cannot carry out most of my usual daily activities because I just don’t have the energy.

15. Feeling Slowed Down:
- □ 0  I think, speak, and move at my usual rate of speed.
- □ 1  I find that my thinking is slowed down or my voice sounds dull or flat.
- □ 2  It takes me several seconds to respond to most questions, and I’m sure my thinking is slowed.
- □ 3  I am often unable to respond to questions without extreme effort.

16. Feeling Restless:
- □ 0  I do not feel restless.
- □ 1  I’m often fidgety, wringing my hands, or need to shift how I am sitting.
- □ 2  I have impulses to move about and am quite restless.
- □ 3  At times, I am unable to stay seated and need to pace around.
