

## PEDs and the Medication Mix in Assisted Living Facilities

### Description

In this Valentine's Day webinar, we'll cover safety precautions and concerns around Performance Enhancing Drugs (PEDs), many of which can be contraindicated with other medications, and their use in assisted living facilities. This presentation will provide senior living nurses and other clinical staff with insights needed to educate residents on PED side effects and other potential interactions while using thoughtful, appropriate language.

**Tuesday, February 14, 2023 | 1:00 PM ET**

### Presented by:

**Deb Choma, RN, C-AL**  
Director of Member Services,  
AALNA

**Jeff Herr, PharmD**  
Manager of Clinical Operations,  
PharMerica

### Learning Objectives

- 1** Recognize and respect the normalcy of sexual activity among residents
- 2** Learn how assisted living nurses and consultant pharmacists can assist residents in making the right choices for themselves when dealing with sexual issues and the use of PEDs
- 3** Provide residents with accurate information/ education regarding mixing PEDs with routine daily medications
- 4** Understand the broad range of behaviors associated with sexuality in seniors using PEDs

*This webinar has been submitted for 1 participant hour/ CEU with NAB/NCERS.*
